# TRISTAN JOHN DAVID

tristandavid20@gmail.com | (647) 675 9568
e-Portfolio: https://tristandavid.github.io/ Scarborough, ON M1T 3C1

## PROFILE

Excellent communication skills, adept at explaining complex technical concepts and processes to clients and non-technical staff in a clear and understandable manner. Professional history in Electrical Engineering with strong academic and technical background graduated with High Honours, GPA of 4.0 at Seneca College. Skilled in repairing computer hardware, diagnosing, troubleshooting, resolving network, hardware and software issues: maximizing productivity by patching and upgrading, planning installing and configuring program applications in a collaborative team, akin to mentorship and adapt to a new working environment. Independent developer of native iOS and Android apps and games, from design and backend hosting through App Store and Google Play release.

## TECHNICAL APPLICATIONS

| | |
|---|---|
| **Platform** | Windows Vista/7/10; Windows Server 2012R2/2016/2019; Mac OSX; Linux Mint/CentOS/Ubuntu/Raspbian |
| **Software** | Microsoft Office, Windows Server, Cisco Packet Tracer, Wireshark, NMAP, Splunk |
| **Language** | Python, Linux (Bash), PowerShell, MySQL, Kotlin, Swift |
| **Mobile** | Jetpack Compose (Android), SwiftUI (iOS), Godot, Xcode, Android Studio |
| **App Publishing** | Google Play Console, App Store Connect, Unity LevelPlay / Unity Ads, GitHub Pages |
| **Virtualization** | VMWare, VirtualBox |
| **Cloud Services** | AWS, Microsoft Azure, Oracle Cloud (Ubuntu VPS) |

## IT CERTIFICATION

**ITIL v4 Foundation Certificate in IT Service Management** October 2024
Certificate Number: **GR671706611TD**

## WORK EXPERIENCE

**Independent Mobile App Developer, Canada** 2025-Present
**Founder & Developer - iOS and Android**

- Design, build and publish native mobile apps and games for both platforms (Kotlin/Jetpack Compose and Swift/SwiftUI), keeping features and design at parity across Android and iOS.
- Shipped **WealthBoard**, a portfolio, dividend and tax tracker, live on Google Play, backed by a self-hosted market-data API and monitoring dashboard on Oracle Cloud.
- Released **Dotcade**, a retro dot-matrix arcade game, approved on the App Store, with in-app purchases and consent-based ads.
- Built **Transly Pocket**, an offline on-device AI transcriber and translator focused on privacy.
- Developing games and tools including **WordGlint** (word puzzle with online live duels), **Puffloon** (one-tap flyer), **Moth & the Lantern** (platformer, sequel in Godot) and **Contribution Room**.
- Manage the full release cycle: store listings, closed testing, privacy/consent compliance (EU/UK), ad mediation, subscriptions and support websites.

**Canadian Locators Inc., Canada** 2022-Present
**IT Support - Ontario**

- Act as a first/second/third point of contact for all computer hardware, software related request for IT support and services.
- Monitor and troubleshoot related issues with Microsoft server 2008/12, Avaya VOIP server and phones.
- Troubleshoot and resolve issues with office 365 and Microsoft windows 10/11 operating systems.
- Monitor, troubleshoot and maintain office routers, modems and other related network devices.
- Administer Microsoft 365 (users, password and authentication).
- Setup and configures desktops, laptops and printers for new hires.
- Setup and troubleshoot printers.

- Reimages, upgrades and repairs of existing computers, laptops and software as needed.
- Provide end-user support for the installation and support of software and applications.
- Purchasing IT equipment and parts needed in the company operations.
- Updates IT inventory management as per needed.

**IB Vogt Asia Pacific, Philippines** 2016-2021

**PROJECT ENGINEER**, <Team Electrical Engineering>

- Provides simulation reports, initial layouts and designs using PVSyst Software and AutoCAD on the worldwide projects of the company.
- Assists in the actual construction of the solar projects in the Asia Pacific region.
- Collaborates with the members of Engineering and Development teams in the Philippines and Germany about the prospective projects worldwide.

**OPERATIONS OFFICER**, <Team Operations and Maintenance>

- Managed and maintained two solar power plants daily operations and maintenance.
- Prepared O&M, incident, and management reports to be submitted daily/weekly/monthly.

**Central Azucarera De Tarlac, Philippines**

**ELECTRICAL SUPERVISOR**

- Monitored and implemented risk management safety procedures and policies as outlined in Department Safety Manual: training, resolution, and preventive maintenance system on all electrical equipment throughout the plant.
- Full coordination and overseeing on the performance of the O&M contractor's Engineer, Technicians, and any other 3rd party contractor.
- Preparation and timely submission of daily/weekly/monthly O&M, incident, and management reports. Liaison Officer/Representative and Pollution Control Officer of the company to his/her assigned area/site.

## PROJECTS

**Self-Hosted Market Data API on Oracle Cloud** 2026

- Deployed and maintain a REST API server on an Oracle Cloud ARM Ubuntu VPS serving live market data to the WealthBoard app, with a dashboard tracking requests per minute, devices and countries.
- Configured subdomains, DNS records and HTTPS; deploy updates remotely via SSH/SCP with key-based authentication.

**Real-Time Multiplayer Game Server** 2026

- Built and deployed a self-managed backend for WordGlint (instead of Firebase) handling async matches, turn-based live duels, an online lobby and a global leaderboard.

## EDUCATION AND PROFESSIONAL DEVELOPMENT

**SENECA COLLEGE** May 2021 – August 2022

Toronto, Ontario

Computer System Technician – Diploma

Graduated with High Honours, GPA: 4.0

**HOLY ANGEL UNIVERSITY**

Angeles City, Philippines

Bachelor of Science in Electrical Engineering
